

ROLPHTON
NUCLEAR TRAINING CENTRE

COURSE 230.2

This course was originally developed for the use of Ontario Hydro employees. Reproduced on the CANTEACH web site with permission

FOR ONTARIO HYDRO USE ONLY

NUCLEAR TRAINING COURSE

COURSE 230.2

- 2 - Level
- 3 - Equipment & System Principles
- 0 - Equipment Principles
- 2 - ELECTRICAL EQUIPMENT

Index

230.21-1	Station Batteries and Battery Chargers
230.22-1	Switchgear: Part 1 - Busbars and Cables
230.22-2	Switchgear: Part 2 - Motor Control Centres
230.22-3	Switchgear: Part 3 - Air Circuit Breakers
230.22-4	Switchgear: Part 4 - Vacuum Contactors
230.22-5	Switchgear: Part 5 - Disconnect Switches, Ground Switches and GTD's
230.22-6	Switchgear: Part 6 - Oil and Air Blast Circuit Breakers
230.22-7	Switchgear: Part 7 - Circuit Breaker Control
230.23-1	Transformers: Part 1 - Ratings
230.23-2	Transformers: Part 2 - Operating Procedures
230.24-1	Electrical Metering: Part 1 - Voltage and Circuit Transformers
230.24-2	Electrical Metering: Part 2 - Voltage Couplers and Meters

230.25-1	Generators:	Part 1	- Electrical and Magnetic Effects
230.25-2	Generators:	Part 2	- Equivalent Circuits
230.25-3	Generators:	Part 3	- Excitation Systems
230.25-4	Generators:	Part 4	- Paralleling and Synchronizing
230.25-5	Generators:	Part 5	- Infinite Bus Operation
230.25-6	Generators:	Part 6	- Non-Infinite Bus Operation
230.25-7	Generators:	Part 7	- Overfluxing
230.25-8	Generators:	Part 8	- Loading
230.25-9	Generators:	Part 9	- Operating Limitations
230.25-10	Generators:	Part 10	- Laboratory AC Generator Project
